

CHIP and Medicaid

Help Protect Health Coverage for Kids in Idaho

Medicaid and the Children's Health Insurance Program (CHIP) work together to provide critical health coverage to Idaho kids. As Congress continues to talk about ways to reform health care, we must make sure that doesn't happen at the expense of those who need it the most. Protecting Medicaid funding and renewing support for CHIP are critical to kids and families in Idaho. **Share your story** to help protect these lifesaving programs.

Do you need health coverage assistance? Apply for Medicaid, CHIP, or any Health Coverage Assistance programs at:
